

Park Pantry Sandwiches

The Lighthouse - Turkey/Swiss

*Built in 1919, the building has 19-inch walls to withstand storms.
The building is the last lighthouse in the state to be electrified in 1960.
The light is a working Aid to Navigation owned by the
U.S. Coast Guard.*

The Lime Kiln - Roast Beef/Cheddar

*Lime was a major industry of the islands and first mined in the park in
1860, which continued for 60 years. Much of the island was logged to
fuel all the kilns at the park and Roche Harbor; at peak production,
400 cords per week were needed to feed the kilns – all cut by hand!*

The SRKW Caprese - Tomato, Basil, Mozzarella

*The 3 families (pods) of orca whales, who spend summers around
these islands foraging for salmon, are known as the Southern Resident
Killer Whales (SRKW). The pods were declared a unique group and
put on the Endangered Species list in 2005.*
