

# Harvesting and Marketing Island-grown Timber

Orcas Island  
**FORESTRY**  
TOUR

SATURDAY JUNE 14, 2014

## Do you have questions about harvesting timber from your land?

Harvesting timber is an important management tool. If done with care and good planning, it can improve the quality and value of your forest while enhancing wildlife habitat, generating revenue and keeping your land in compliance with current use taxation programs.

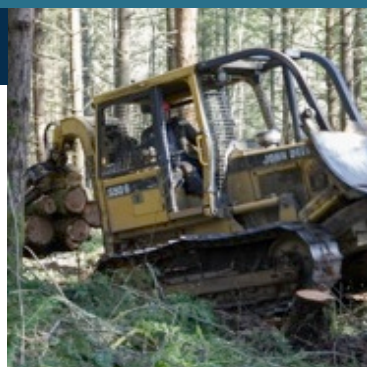

If you are considering a timber sale, join us for a tour of several recent harvest projects on Orcas Island where we will discuss costs, logistics, markets and a wide range of timber management strategies.

## Where and When?

The tour will leave from Buck Park (Mt. Baker Rd, Eastsound) and include 4 sites on Orcas Island.

Please carpool.

**Saturday June 14<sup>th</sup>**  
**9am – 4pm**

## What Will I Get?

Participants will learn about...

- Conducting a timber sale that **aligns with your objectives**
- **Accessing local markets** for your logs
- Estimating potential **costs** and **revenue**
- Locating contractors and professional **forestry resources**
- Improving **wildlife habitat** and **forest health**
- Developing ecological timber management **strategies**
