

Petition start date late December, 2019

Now Whereas: The County is responsible for the needs of San Juan County citizens, including the recycling/solid waste needs of our community; and

Whereas: The County has received numerous letters and Petitions over the years asking the County Council to solve the non-conforming land use designation for Community Treasures; and

Whereas: San Juan Islanders need and deserve a permanent recycling facility, as the other major islands have, like The Exchange on Orcas and Take it or Leave it on Lopez; and

Whereas: Citizens, local businesses, and charitable organizations all have a need for the services and benefits that Community Treasures provides our community; and

Whereas: Yearly Ecology Reports show Community Treasures' services keep hundreds of tons of materials out of local landfills;

Therefore we, the undersigned users of Community Treasures, ask the San Juan County Council to:

1. Change the land use designation of 6739 Roche Harbor Road to Rural General Use (RGU), which would make the site conforming and allow needed San Juan Island recycling services to continue to meet the needs of our community.
2. Properly designate 6739 Roche Harbor Road an Essential Public Facility (EPF), because Community Treasures activities are part of our County's solid waste stream.
