

We are excited to introduce a new member of the team at Friday Harbor Dentistry. Dr. Greg Fisher is a general dentist with extensive training in advanced dentistry including implants, cosmetic dentistry and full mouth rehabilitation cases. Dr. Fisher has been named a 'Top Dentist' for the past 3 years in the annual Seattle Met Magazine Best Dentist survey. In getting to know Greg we feel he brings a great combination – a wealth of expertise in managing more complicated cases as well as a calm, easy-going demeanor that puts patients at ease.

Dr. Horn met Dr. Fisher while looking for ways to improve our scope of services and general appointment availability. We think Greg will be a great asset to our patients as we strive to offer the absolute best dentistry available in a comfortable and caring environment. We hope to be able to accommodate busy schedules and minimize trips off-island for care.

A native of the Northwest, Dr. Fisher completed his undergraduate and dental training at the University of Washington and completed a post-graduate residency at Providence Hospital in Seattle where he gained additional experience in anesthesia, oral surgery, emergencies and general dentistry. He has over 30 years of private practice experience, mainly in and around the Tacoma area. He has extensive experience in dealing with more complex treatments and cases. Some of those services include implants; crowns and veneers; and removable dental appliances such as partials and dentures. On a personal front, Greg enjoys skiing, hiking and dancing and has a 17 year-old daughter in her senior year of high school and a 20 year-old son at Whitman College.

Dr. Fisher will begin working part-time in the office in December while Dr. Horn continues his normal hours. Please feel free to stop by to meet Dr. Fisher and welcome him to the office.

Best Regards,

Michael Horn, DDS and your friends at Friday Harbor Dentistry
